

10" DWCM

The 10" DWCM is one of the smallest tools in the fleet weighing in at only 90kg. It can be deployed via surface umbilical or interfaced directly to a WROV.

The 10" DWCM can be used to cut any target up to 11.5" OD including pipelines, vertical or inclines pipes, reinforced concrete, composite cables, concrete legs, flexible risers and other structures.

Contact CUT if you have a requirement for this tool.

10" DWCM

Performance	Up to 11.5" OD tubular cutting capacity	
Power Requirement	Hydraulic Power 45 l/min @ 200 bar	
Weight (kg)	Air	Water
	90	70
Dimensions (mm)	Tilting arm open	
	Tilting arm closed	
Length	550	910
Width	1030	860
Height	575	575
