

18" DWCM

The 18" DWCM is an extremely versatile cutting tool. It can be powered via surface umbilical or interfaced directly to a WROV and positioned using WROV or divers.

Additional buoyancy can be added and 'trimmed' to suit client requirements with a depth rating of up to 3000m. ROV handles are fitted to facilitate ease of manoeuvring by WROV.

The 18" DWCM can be used to cut any target up to 22" OD including pipelines, vertical or inclines pipes, reinforced concrete, composite cables, concrete legs, flexible risers and other structures.

Contact CUT if you have a requirement for this tool.

18" DWCM		
Performance	Up to 22" OD tubular cutting capacity	
Power Requirement	Hydraulic Power	
	Air	Water
Weight (kg)	235 (700m) (with buoyancy) 284 (3000m)	25 (with buoyancy)
Dimensions (mm)	Tilting arm closed	Tilting arm open
Length	1520	1940
Width	1340	1330
Height	690	690
