

240" DWCM

Cutting Underwater Technologies launched the largest DWCM of its kind in 2017.

The 240" DWCM has a cutting range of 5m OD to 7.3m OD and has successfully performed 4 cuts offshore. The New 240" DWCM developed for the Murchison Decommissioning Project The modular 240" DWCM is designed to perform straight, castellated and step cuts on large scale targets in a single run.

Contact CUT if you have a requirement for this tool.

240" DWCM		
Performance	240" OD tubular cutting capacity	
Power Requirement	Hydraulic Power 200 l/min @ 300 bar	
Weight (kg)	Air	Water
	42,978	11531
Dimensions (mm) – any clamp position		
Length	13,277	
Width	8,758	
Height	2,696
